

With construction of the new high school parking lot, parents, students, and community members will have a new student drop off/pickup procedure for the 2011-2012 school year at Washington Junior High. We ask that parents and students travel from the north on South Avenue B and enter the south parking entrance (new), drop off/pickup their students and loop around the parking area to depart from the same entrance, now traveling south on South Avenue B to Sitler Drive. The north entrance will be designated for buses and faculty only. Non faculty patrons and students will find adequate parking available in the south parking lot and will have sidewalk access to the junior high building. Signs will indicate areas of access and parking.
