

HS: Cappuccino Machine

Last Updated Tuesday, January 07 2014 08:17

Our High School library is excited to have a Cappuccino Machine! By teaming with Pepsico/Snack Express we don't have to purchase the actual machine, just the supplies (drink mix, cups, lids). There is a \$0.45 profit from each cup that goes to purchase new books for the library when drinks are purchased during regular hours. When drinks are purchased during snack break & lunch the Peer Helpers/Dance Marathon students run the machine and profits are collected and distributed by the WHS PTO to benefit different organizations. Our drinks include: Hot Chocolate, French Vanilla, Carmel, English Toffee and White Chocolate. Because the drink is non-carbonated, caffeinated, and served in a secondary school, it meets all Healthy Kids Act criteria. Sales average 100-125 cups per day. What a great addition to our school!
