

We are proud of the quality of teachers we have here at WCSD! Our teaching staff continually works to grow in their abilities and knowledge. As part of this, WCSD holds PROFESSIONAL DEVELOPMENT TRAINING on a regular scheduled basis. Recently teachers had the opportunity to tour some of our local businesses. This gave our teachers a better understanding of what companies in the workplace are looking for and how we can better equip our students for when they enter the workforce. Pictured here are teachers touring Premier Sheep. Companies toured included: Whitesell, Premier Sheep, Reliant LTC Pharmacies & Engineered Build Design, Modine, Bazooka Farmstar, Syngenta and ACH Foam. We want to thank our local businesses for sharing knowledge and support to make our students ready for life after high school!
