

High School Math Class Update

Last Updated Wednesday, January 11 2017 12:36

In order to serve our students better and to make the math department more efficient, we have changed the instructor for one Geometry and one Algebra class. This will take effect 3rd term, block 2.

We will continue to use the same content, assignments, videos and tests regardless of the instructor.

If you have questions or concerns please contact Nicole Farmer or Jennifer Crumly at the high school.
