

The Junior High MAGAZINE SALES is in full swing right now! All proceeds go toward media enabled technology at the 1918 building. Media enabled technology includes a ceiling mounted digital video projector and classroom audio system that allows the teacher to display information in a variety of different formats to the students. It also includes the audio enhancement system that will allow every student to hear clearly anywhere in the room. Our goal is \$32,000 and we receive 40% of the proceeds. We thank you for your generosity and support in this important fundraiser!
