

We love the beautiful trees that grow on each of the WCSD administrative and school campuses. Many of the trees have been donated and are very special to us. On the NE corner of the Junior High building beautiful trees were planted several years ago by the Student Council in memory of some of our Junior High students who had tragically passed away due to cancer, accidents, drownings and critical illnesses. Recently, two of the Memorial Trees needed replacement and the Washington Tree Committee generously donated and planted two beautiful Sargent Crab Trees at this site. Thank you to Marde McConnell, Mike Baker and ALL of the Washington Tree Committee members who have helped make our campuses beautiful!
