

We are pleased to say the WCSD has been listed in the Des Moines Register's Top 100 Workplaces. We were #12 on the list of medium sized business, the highest ranking school in that category. The survey was conducted by Workplace Dynamics. Places of employment were initially nominated and employees took part in a survey. The survey found that the three most important areas of employee satisfaction come from DIRECTION (employees are emotionally bought into what the organization is striving to achieve); EXECUTION (the company has a high-performance culture); and CONNECTION (employees feel they are being appreciated/ doing something meaningful). There is a correlation between employees scoring these areas high and rating working at the company high. This is something we are very proud of! (Information courtesy of The Des Moines Register.)
