

We're very excited at Lincoln Elementary because we received the Hy-Vee Garden Grant for seeds & other garden supplies. We will receive \$375 to cover garden supplies. Hy-Vee's One Step Community Garden Grants are awarded to organizations to help teach the process of planting, tending and harvesting their own fruits & vegetables. Grants are awarded for general operating support for garden upgrades as well as seeds, plants and supplies. Thank you Hy-Vee! We'd also like to thank Lynn Fisher at Washington County Public Health for your efforts in organizing this grant and program for us. THANKS A BUMPER CROP!
