

Camp Invention, a program of the National Inventors Hall of Fame, is coming to Lincoln Elementary, for the 7th year, the week of June 12-16 from 9AM – 3PM. Camp Invention gives students that will be entering grades K-6 the opportunity to disassemble machines, learn through hands-on activities, and create and design inventions. Let your child's imagination run wild while exploring connections between science, technology, engineering and innovation. Secure a spot today at www.campinvention.org. Save \$25 if you sign up by March 20th using the Promo Code SWEETSAVE.

Students that will be entering 7-9th grades can register as a Counselor-in-Training for \$130 and attend the week of camp, helping and learning at the same time!

Students that will be entering 10-12th grades can earn up to 40 hours of Silver Cord hours by volunteering to work this week!

If you would like to be considered for some financial assistance, please contact me.
