

The 6th Grade students from Lincoln Elementary School participated in the 12th Annual Adventure Day. This year's trip was to Belva Deer Lake near Sigourney. The students participated in nature hiking, GPS navigation, off road biking, nature printmaking, Team Building, canoing, kayaking and fishing. 48 community volunteers and parents, along with Lincoln Staff members served as guides and instructors for the various activities. "I would like to THANK EVERYONE involved! This event could not be done without their invaluable help", Tim Balvanz, Physical Educator, Lincoln Elementary School. This was a fantastic day for everyone involved!
