

On December 1st, the "Senior Saluters" Lego team of Lincoln elementary competed against 31 other teams from Iowa at the Regional Competition held in Ottumwa this year. This year's challenge focused on our aging population and to help seniors live independent lifestyles. The students not only had to program a robot to accomplish tasks during a timed competition; but also learned core values, problem solving, teamwork skills and conducted a project to help seniors be more independent. The team received a 1st place ranking for " Exceptional Team Performance" and will compete at the State Competition in January held in Ames. Good luck to them. Pictured here are: (L-R) Front row- Alexa, Hannah, Emily, Kaitlyn. Middle row- Lucas, Leah, Cody. Back row- Ryan (Mentor), Jadon, Olivia, Coach Joe Pisarik. Mentors not pictured: Addie & Libby.
