

Please help our money tree grow. Each student at Stewart Elementary will receive a sheet to record the minutes they read at home each week from March 8-April 5. Total minutes spent reading at home will be collected each Friday and the total minutes will be added as dollars to the tree in the hall outside the media center. When students reach the goal of reading 360 minutes for the month, they will be a millionaire reader and their photo will be on display in the hallway at Stewart. The students that reach the 360 minute goal more than once will be recognized as multi-million dollar readers. Let's see how many minutes Stewart Elementary students can read!
