

We are pleased to introduce Adam Miller, the new Principal of Stewart Elementary. Adam joins us with a wealth of knowledge and experiences. Prior to joining our WCSD team; Adam taught in the Pella Community School District. For the past three years he served as the preschool-fifth grade principal at Pleasantville Elementary. Adam obtained a Physical Education degree from Wartburg College and Educational Leadership degree from Drake University. He plans to promote instructional leadership by working with staff to create an exceptional learning environment for all kids. Adam values relationships with students and staff built on respect, integrity and honesty. As a graduate of WHS, he is ready to come home and be active in WCSD and the community. Adam has been involved in many school, community and church ministry activities throughout his administrative and teaching career. We are excited to have Adam here as part of the WCSD!
